

# EXMAR

## Adjustable elbow fittings 45°

with taper and O-ring

### Flexibility

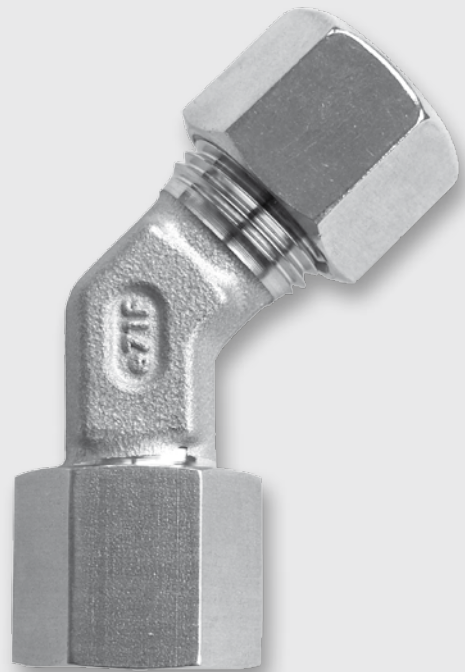

in use  
thanks to new combination possibilities and  
alignment variants in the system

### Reduction

of the assembly effort  
due to low torque and limited tightening distance  
of a robust taper fitting

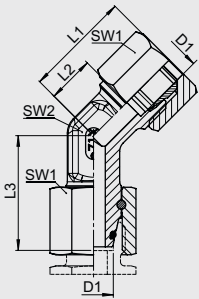

### Safety

in quality and availability,  
because they are stock items manufactured in  
Switzerland

## Adjustable elbow fittings 45° with taper and O-ring

### Product range EWKO-..L 45°

Type -D1	Mat.-Nr.	PN	L1	L2	L3	SW1	SW2	g/Stk
